The context for the statement was a question about the future, several years down the road. In my mind, a smaller hospital on the Galveston campus is perfectly consistent with UTMB being as big or bigger than it was.

David, you are quoted in the press as saying that UTMB would come back "as big as it was before the storm", as opposed to our previous comments about a smaller hospital. Is the quote correct?? Some Regents have expressed some concern that this could give people "false hopes" about the future?? Could you clarify the message?? Thank you. Ken
